

APPENDIX 9

PHOTOS OF STUDY AREA: STANDS 1 – 10

STAND 1:

Fig. 1: Option 1: There are no visible archaeological features in this section. Visibility was good.

Fig. 2: Option 2: There are no visible archaeological features in this section. Disturbed by Eucalyptus trees.

STAND 2:

Fig. 3: LIA circular stone wall.

Fig. 4: Option 1: This site is approximately 15m from the stone wall in Fig. 3. Building can only take place 15m or more south of the above feature.

STAND 3:

Fig. 5: Existing house on Stand 3.

Fig. 6: No visible archaeological features in stand 3. Well established garden.

STAND 4:

Fig. 7: There are no visible archaeological features in this section. A LIA stone wall was observed about 40m to the west of this site, which poses no problem.

Fig. 8: Part of this proposed building will take place in this previously disturbed area. The section in Fig. 7 is directly to the south of this clearing.
