Dear Phillip

RE: EXPORT OF SHELL SAMPLES FROM PORT NOLLOTH (CASE: 10978; PERMITID: 2533)

This letter serves to notify SAHRA that this permit was not used. The reason for this is that the new iThemba C14 laboratory in Johannesburg commenced operation before we had exported the samples. And we elected to rather use the local facility. The dating has now been completed and the results indicate that the middens dated to between 4000 and 2500 BC. The full results will be published in due course.

Please can this permit now be closed.

Yours sincerely

Jayson Orton
