**RE: AIA FOR THE BOSA TRANSMISSION LINE PROJECT FROM ISANG SUBSTATION TO
THE TLOKWENG BORDER POST IN SOUTH EASTERN AND KGATLENG DISTRICTS-
BOTSWANA.**

Your clients, G&A Heritage (Pty) Ltd, RPM and Aurecon are granted a conditional planning consent to proceed with the above project in South Eastern and Kgatleng districts of Botswana. Kindly note the following conditions as the project proceeds;

1. That development at site **1,3** and **6** may proceed without any archaeological mitigation, because of the lower density of artefacts but there has to be documentation..
2. An archaeological induction should be conducted to all project participants before the project commences.
3. That any human burials that may be encountered during the project should be relocated to an agreed cemetery
4. There has to be an archaeological watch brief and monitoring at site **2** and **4** as they may be possible occurrence of unidentified graves.
5. All chance finds should be reported to the Department of National Museum and Monuments-Salvage unit-3610409 or the consultant archaeologist.

Thank you

Yours faithfully

T. Sabokone.

DIRECTOR, BOTSWANA NATIONAL MUSEUM

Our Vision: To protect the environment; Conserve the country's renewable and natural resources; Derive value out of environment for the benefit of Botswana
