**RE: Interim report: Permit Export (temporary) ID: 2704**

The first interim report on the exported glass beads to Sweden from the University of Pretoria:

- Principal researcher: Dr Farahnaz Koleini, farakoleini@gmail.com, Farahnaz.Koleini@up.ac.za, Department of Anthropology and Archaeology, University of Pretoria, +27 12 420 2595
- Supervisor: Prof Innocent Pikirayi, Department of Anthropology and Archaeology, University of Pretoria, innocent.pikirayi@up.ac.za, +27 12 420 2595.
- Hand carry the glass beads: Prof Anders Lindahl, Department of Geology, Lund University, Anders.Lindahl@geol.lu.se, +46 46 222 78 83

A total of 27 glass beads from the Department UP Arts, University of Pretoria Museums in Pretoria were handed and temporarily loaned to Dr Koleini on 28 March 2018 and then personally handed to Prof. Lindhal. They were transported to the Laboratory of Laser ablation inductively coupled plasma mass spectrometry (LA-ICP-MS), Department of Geology in Lund University (Sweden).

The beads were securely packed in sealed containers with due consideration to preservations requirements set by the UP Museums to ensure no damage or loss. The beads were hand couriered by Prof Anders Lindhal on 03-04-2018 to Sweden. The process of export was done with no problems. At the present, the beads remain in the laboratory in Sweden. The beads will be analysed in the next 2-3 weeks. Based on the organized research program the beads should be returned to University of Pretoria in December 2018 as per permit requirements
