**Ref:** Dwaalfontein Paleontological Report

22 July, 2014

Greenmined Environmental (Pty) Ltd

Attention: Ms Daryn Price

**RE: Dwaalfontein Paleontological Desktop Report**

Heritage Contracts and Archaeological Consulting CC was appointed by Greenmined Environmental to facilitate a paleontological desktop study on behalf of B & E International in fulfilment of as per the requirement from SAHRA for the Dwaalfontein aggregate quarry on the farm Dwaalfontein 565 close to Bronkhorstspuit, Mpumalanga.

The project area is underlain by by Vaalian-age (Achaean) hypabyssal, igneous rocks of diabase composition. Diabase is a medium-grained, hypabyssal plutonic igneous rock type and there is no potential for fossil material being contained in this rock.

The paleontological desktop study concluded that the project will not have any negative impact on the paleontological heritage of the area and it is seen as a socially beneficial project and no further action is required. Please find the desktop study attached as Annexure A

Any further queries can be forwarded to Jaco van der Walt on Cell: +27 82 373 8491 or to [jaco.heritage@gmail.com](mailto:jaco.heritage@gmail.com)
