

A permit for the destruction of the wall described in point '2' (above) was obtained from the Free State Provincial Heritage Resources Authority. (In future the archaeological unit would be glad to have the opportunity to comment on such features as well because "...features, structures and artefacts associated with military history which are older than 75 years and the sites on which they are found" are according to the National Heritage Resources Act (no 25 of 1999) archaeological resources).
