

Maremane Community

22 October 2018

To

The General Manager

Kitso Mining Ltd

Dear Sir

Further to our planning meeting on 8 August 2018, and the consultation meeting on the disturbed graves at Kitso Mine held at Kuruman on 13 September 2018, we, the Maremane Community Property Association have resolved that the graves must be rehabilitated without further delay. This important decision has been reached by CPA considering that it is contrary to Tswana culture not to take corrective action within a reasonable period of time.

The onus is therefore now placed on the Mine to consult with the heritage authority to secure permission for rehabilitation of the graves.

Yours Sincerely

23/10/2018
