RE: INSPECTION TO THE PREMISES ABOVE

We have inspected the above property and hereby report as follows:

MAIN ROOF:

The entire roof is highly unstable. The roof will not with hold the weight of tarpaulins hence a total fumigation is impossible.

The structure of the dwelling will face a risk of total collapse.

Unfortunatly we will not take such risks.

This report is from a qualified Inspector that is registered by the Dept. of Agriculture (Act 36 of 1947)

Yours Faithfully

A handwritten signature in black ink that reads "A. Budhran".
