

865	S31 16 04.0 E26 17 35.9	This small, circular stone-walled feature lies on a rocky hill overlooking the railway line. It is a defensive position related to the ABW.	Medium / GPA
-----	----------------------------	---	--------------

866	S31 16 04.6 E26 17 37.6	This is a very small, arc-shaped stone feature that could have concealed one person. It is midway down the slope below a rocky hill and faces east. Related to the ABW.	Medium / GPA
-----	----------------------------	---	--------------

867	S31 16 13.6 E26 16 25.0	This stone walling is about 8 m long and looks out towards the west. This is a defensive position related to the ABW.	Medium / GPA
-----	----------------------------	---	--------------

868	S31 15 08.0 E26 15 34.5	Three stone artefacts probably from the LSA. One of them is a thumbnail scraper. Scale in cm.	Very low / GPC
-----	----------------------------	---	----------------

869	S31 15 07.5 E26 15 24.2	MSA stone artefacts on hornfels and a white rock (possibly also hornfels), along with one flake on quartzite (from the grey quartzite cobbles included in the Molteno Fm.). Scale in cm.	Very low / GPC
-----	----------------------------	--	----------------

870	S31 15 10.7 E26 15 17.1	A scatter of MSA and/or LSA artefacts in an erosion gully. There are two scrapers.	Very low / GPC
-----	----------------------------	--	----------------

871	S31 18 26.7 E26 15 35.2	A scatter of hornfels flakes on a flat area above a cliff.	Very low / GPC
-----	----------------------------	--	----------------

			
872	S31 18 27.6 E26 15 35.5	A scatter of hornfels flakes on a flat area above a cliff.	Very low / GPC
			
873	S31 18 57.9 E26 16 27.7	A scatter of hornfels flakes on a flat grassy area on top of a hill.	Very low / GPC
			
874	S31 18 42.5 E26 16 28.2	A 5 m long stone wall on a low ridge. It offers a view towards the southeast towards the area where the Boer laager was said to have been. Related to the ABW.	Medium / GPA
			
877	S31 18 28.6 E26 16 17.6	In a small area between three boulders there was a light scatter of hornfels flaked stone artefacts	Very low / GPC

		and a piece of rusty metal (perhaps a fragment of a tin lid). The scatter extends more widely around the boulders (scale in cm).	
			
878	S31 18 12.9 E26 16 01.2	An ephemeral scatter of stone artefacts around boulders. Includes artefacts in hornfels and a quartzite core (scale in cm).	Very low / GPC
			
879	S31 15 26.9 E26 15 13.3	A scatter of flaked stone artefacts on a flat area above a cliff.	Very low / GPC
			
1695	S31 17 36.0 E26 15 50.7	A large windrow of blue gum trees. There are two rows of trees planted very close together. A short return row occurs at the south-western end of the main row and the trees may relate to those to the north of the road and railway line.	Low

1696	S31 17 42.5 E26 15 50.7	A very rough circular enclosure of about 10 m diameter is visible but is heavily overgrown. Enough piled rocks are evident to know that the feature is anthropogenic but its function is unknown. It is unlikely to be an ABW feature.	Very low / GPC
1697	S31 17 43.5 E26 15 50.5	At this spot a number of fragments of very smooth sandstone that seem like lower grindstone fragments were seen along with two enamel bowls. It is impossible to know what they relate to.	Very low / GPC

1698

S31 17 45.6
E26 15 48.4

This east-facing rock shelter has the names of Boer soldiers inscribed on the rock. Some of them have been vandalised by later chipping to obscure the names or dates. Visible names include the following (there are a few that are illegible):
 WF de Kock
 JB de Wet _ 1900
 CG Leary KR_
 JH
 JHM
 JH Myburgh Platfontein 8/2/1900
 NF Myburgh 9 Feb 1900
 Peter Botes 17.1.08

1699	S31 17 46.5 E26 15 48.2	This is a small rock shelter with some walling in it. It is in the same koppie as 1698 – just 28 m to its south – and is thus very likely also related to 1698 and the ABW.	Medium / GPA
			
1700	S31 17 46.4 E26 15 47.3	Two stone-walled features occur very close together on a hill. One is square and measures 1,5 m across, while the other is round and about 6 m in diameter. Related to the ABW.	Medium / GPA
			
1701	S31 17 48.4 E26 15 46.0	Two low stone walls of 11 m and 9 m length with a view out towards the west. Related to the ABW.	Medium / GPA
			

1702	S31 17 49.7 E26 15 46.6	A 3 m long arc-shaped stone wall but with limited view towards the west due to another ridge being in front of it. One can see westwards on either side of the ridge. Related to the ABW.	Medium / GPA
			
1703	S31 17 50.3 E26 15 46.5	An 11 m long arc-shaped stone wall but with limited view towards the west due to another ridge being in front of it. One can see westwards on either side of the ridge. Related to the ABW.	Medium / GPA
			
1704	S31 17 50.8 E26 15 46.4	A 5 m long arc-shaped stone wall with a view towards the south. Related to the ABW.	Medium / GPA

1705	S31 17 52.0 E26 15 46.9	A small C-shaped enclosure of 2 m diameter facing towards the south. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1706	S31 17 52.3 E26 15 46.7	An arc-shaped enclosure of 3 m length facing towards the west. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1707	S31 17 52.9 E26 15 46.7	An arc-shaped enclosure of 8 m length facing towards the west. Related to the ABW.	Medium / GPA
			
1708	S31 17 57.1 E26 15 45.6	An arc-shaped enclosure of 3 m length facing towards the west. Related to the ABW.	Medium / GPA
			
1709	S31 17 57.4 E26 15 46.3	An arc-shaped enclosure of 3 m length facing towards the southwest. Related to the ABW.	Medium / GPA
			
1710	S31 17 57.8 E26 15 47.1	A 2 m section of stone walling on a hilltop looking towards the south. Related to the ABW.	Medium / GPA

1711	S31 17 58.4 E26 15 47.2	This is an 80 m long discontinuous stone wall across a neck. Hiding behind it would afford a view towards the west. The views below are looking towards the south and north respectively from the ends of the wall. The waypoints mark the ends. Related to the ABW.	Medium / GPA
1712	S31 18 00.9 E26 15 48.0		

1713	S31 18 01.7 E26 15 47.6	A small stone cairn built on a rock outcrop. Being on the summit of a small hill amongst many other ABW features, it is assumed to also relate to the ABW.	Low / GPB
			
1714	S31 18 02.5 E26 15 50.4	A 10 m long stone wall along a ridge that looks towards the west. Related to the ABW.	Medium / GPA

1715	S31 18 04.1 E26 15 49.7	A 15 m long discontinuous section of walling in a shallow neck with a view towards the west. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1716	S31 18 05.0 E26 15 49.2	A 2 m long arc-shaped stone wall with a view towards the west. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1717	S31 18 05.3 E26 15 49.4	A 5 m long section of stone walling on a ridge facing towards the west. Related to the ABW.	Medium / GPA
------	----------------------------	---	--------------

1718	S31 18 05.7 E26 15 49.2	An 8 m long section of discontinuous stone walling on a ridge facing towards the west. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1719	S31 18 05.9 E26 15 49.1	A 2 m long section of stone walling on a ridge facing towards the northwest. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1720	S31 18 06.6 E26 15 48.9	A 6 m long section of stone walling in a shallow neck on a ridge facing towards the west. Related to the ABW.	Medium / GPA
------	----------------------------	---	--------------

1721	S31 18 07.2 E26 15 48.4	A 1 m long stone wall on a ridge facing towards the west. Related to the ABW.	Medium / GPA
------	----------------------------	---	--------------

1722	S31 18 07.6 E26 15 48.4	A 1 m long stone wall on a ridge facing towards the west. Related to the ABW.	Medium / GPA
------	----------------------------	---	--------------

1723	S31 18 07.7 E26 15 48.2	A 2 m long stone wall on a ridge facing towards the southwest. Related to the ABW.	Medium / GPA
			
1724	S31 18 07.9 E26 15 48.1	A 3 m long stone wall on a ridge facing towards the west and with a loophole built into it. Related to the ABW.	Medium / GPA
			
1725	S31 18 08.4 E26 15 48.1	A 3 m long stone wall on a ridge facing towards the west. Related to the ABW.	Medium / GPA
			

1726	S31 18 09.4 E26 15 48.2	In this area there are eight short stone walls spread across 20 m and each measuring between 1 m and 2 m long. They face towards the southwest. There is also a ground patch on a dolerite rock alongside one of the features. The waypoints mark the ends. Related to the ABW.	Medium / GPA
1727	S31 18 08.8 E26 15 47.9		

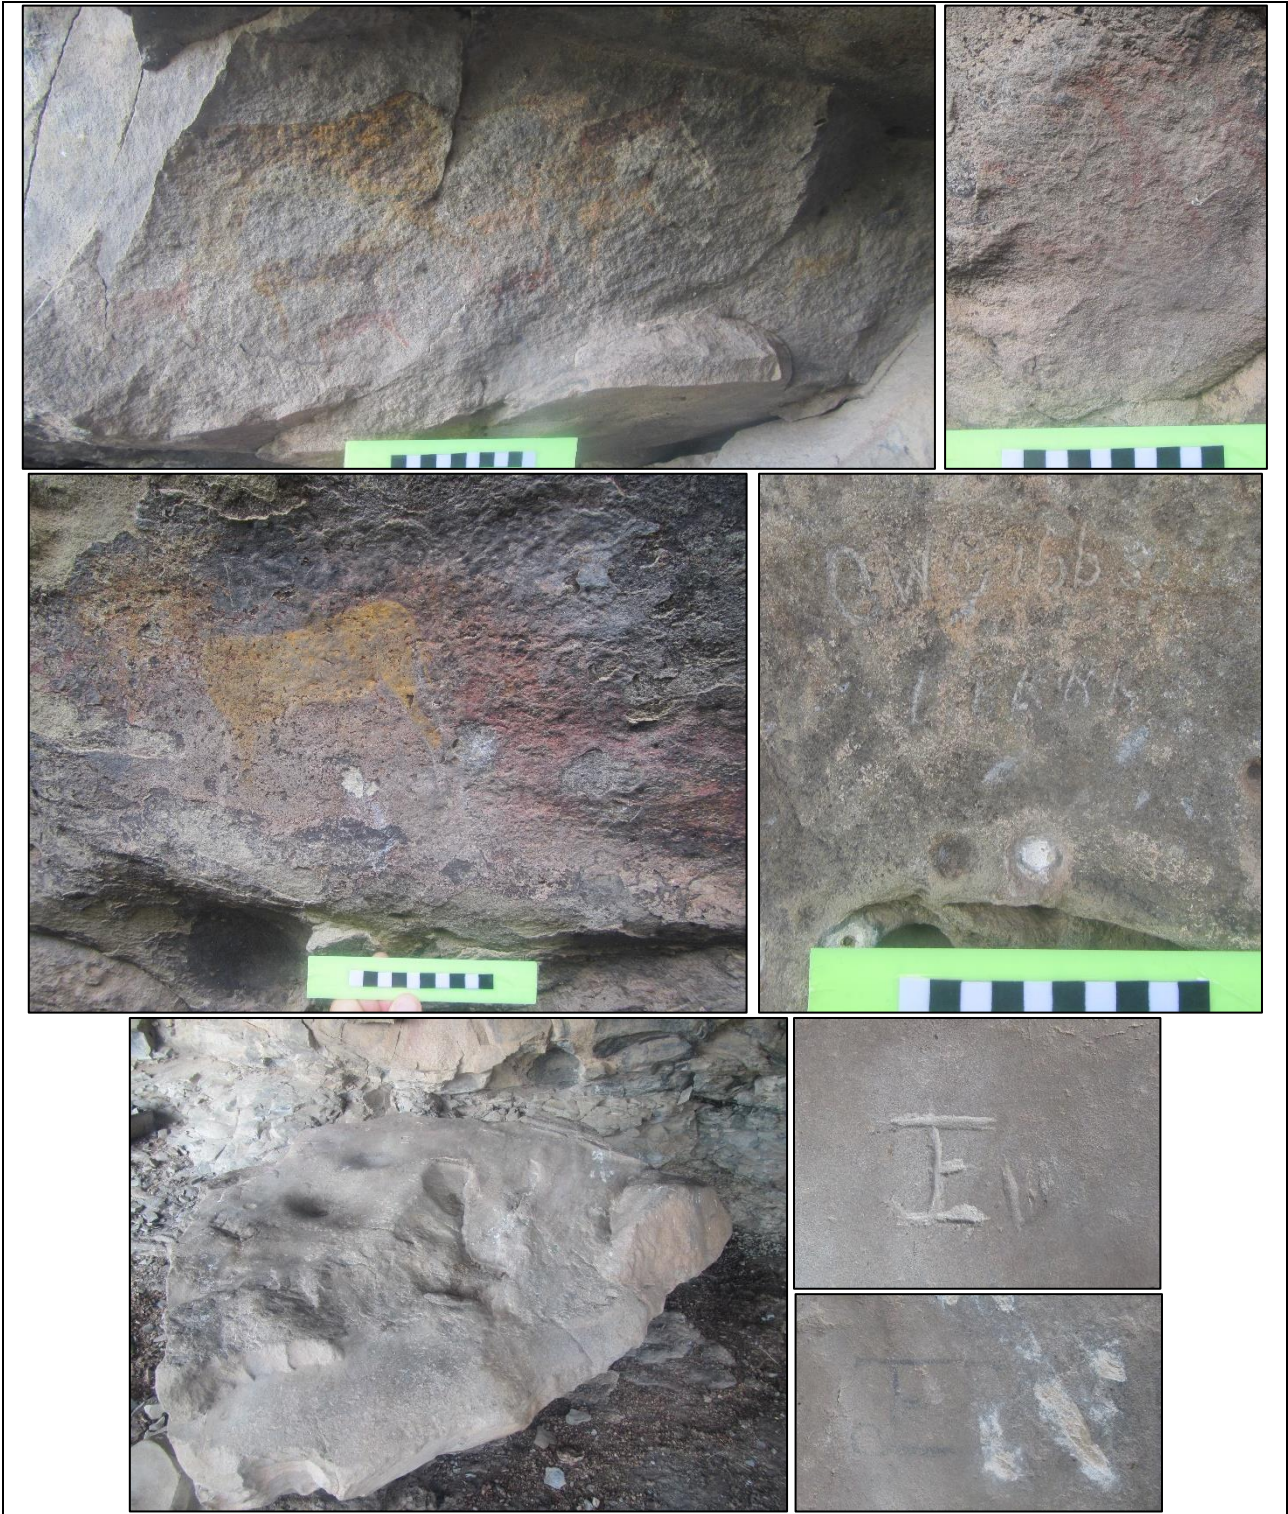

1728

S31 18 22.2
E26 15 36.1

This rock shelter has some stone walling inside it and many panels of rock art. The paintings include yellow and white bichrome eland, some smaller red antelope, and some red human figures. There is also a tiny panel with vertical lines engraved/scratched into the rock and some letters and numbers have been engraved on the wall. There is a large boulder on the floor of the shelter that has been well-ground and it also has an engraved 'E' and a black-painted 'E'. Stone artefacts are rare.

High / IIIA

1730	S31 18 24.8 E26 15 35.8	A 2 m long section of stone walling facing towards the west. It is located on a level area near the base of a cliff but a few meters up from the plains so as to have a view. This is assumed to be an ABW feature.	Medium / GPA
			
1731	S31 18 25.6 E26 15 35.9	A light scatter of LSA hornfels artefacts located above a cliff. Scale in cm.	Very low / GPC
			
1732	S31 18 18.1 E26 15 50.8	A 4 m long section of stone walling facing towards the northwest. Related to the ABW.	Medium / GPA
			

1733	S31 18 17.8 E26 15 50.9	A 4 m long section of stone walling facing towards the northwest. It is located on a high ridgeline. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1734	S31 18 18.7 E26 15 50.9	An 8 m long section of stone walling facing towards the southwest. It is located on a high ridgeline. Related to the ABW.	Medium / GPA
------	----------------------------	---	--------------

1735	S31 18 19.6 E26 15 51.2	Four short sections of stone walling and one small cairn located close together on a high ridgeline and facing towards the southwest. There are also some LSA hornfels artefacts here. Scale in cm. Related to the ABW.	Medium / GPA

1736	S31 18 20.3 E26 15 52.0	Four short sections of stone walling 1-2 m long and located close together on a high ridgeline. They face towards the southwest. Related to the ABW.	Medium / GPA
			
1737	S31 18 25.6 E26 15 58.1	Two stone walls of 5 m and 6 m long and facing to the west and south respectively.	Medium / GPA
			
1738	S31 18 25.8 E26 15 58.0	A 4 m long section of stone walling facing towards the west and located on a high ridgeline. Related to the ABW.	Medium / GPA

1739	S31 18 26.1 E26 15 57.9	An 8 m long section of stone walling with a loophole in it and facing towards the west. It is located on a high ridgeline. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1740	S31 18 26.5 E26 15 57.8	A 7 m long section of stone walling facing towards the west. It is located on a high ridgeline. Related to the ABW.	Medium / GPA
------	----------------------------	---	--------------

1741	S31 18 28.6 E26 15 58.5	This is a very small section of walling that has a loophole built into it. It is perfect for a single person to fit into. Related to the ABW.	Medium / GPA
			
1742	S31 18 28.9 E26 15 58.6	Although unclear in the photograph, this is a defensive screen made by piling a few rocks on top of an outcrop. Related to the ABW.	Medium / GPA
			
1743	S31 18 29.3 E26 15 58.6	This site has three adjoining stone-walled circles each of about 2 m diameter. They are located on a high ridgeline. A shotgun cartridge and another small fragment of metal were found here. Related to the ABW.	Medium / GPA
			

1744	S31 18 39.3 E26 15 58.9	A 25 m long series of interlinked stone features facing towards the south and southwest. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1745	S31 18 40.9 E26 16 00.8	A 10 m long section of stone walling facing towards the west. Related to the ABW.	Medium / GPA
------	----------------------------	---	--------------

1746	S31 18 41.4 E26 16 00.6	An 8 m long section of stone walling facing towards the south. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1747	S31 18 41.7 E26 16 00.9	An 8 m long section of stone walling facing towards the south. Related to the ABW.	Medium / GPA
			
1748	S31 18 41.8 E26 16 01.4	This is a 40 m long stone wall facing towards the south. The waypoints mark the ends. Related to the ABW.	Medium / GPA
1749	S31 18 41.3 E26 16 02.8		
			

1750	S31 18 41.3 E26 16 03.0	A 2 m long arc-shaped stone wall facing towards the south. Related to the ABW.	Medium / GPA
			
1751	S31 18 40.7 E26 16 03.4	An 8 m long section of stone walling facing towards the southeast. Related to the ABW.	Medium / GPA
			
1752	S31 18 42.5 E26 16 04.1	A 38 m long section of stone walling facing towards the southwest. Rather than running along a summit ridge or scarp, it runs down a slope. The waypoints mark the ends. Related to the ABW.	Medium / GPA
1753	S31 18 43.5 E26 16 05.0		
			

1754	S31 18 44.0 E26 16 05.7	A 10 m long section of stone walling facing towards the south. Related to the ABW.	Medium / GPA
			
1755	S31 18 46.8 E26 16 06.9	A 10 m long stone wall that includes a natural rock outcrop in the middle of it. The wall to the east of the outcrop is longer than that to the west. Related to the ABW.	Medium / GPA
			

1756	S31 18 46.9 E26 16 07.5	A 5 m long arc-shaped stone wall facing towards the south. Related to the ABW.	Medium / GPA
			
1757	S31 18 44.6 E26 16 17.5	A light scatter of LSA artefacts made on hornfels and including the adze pictured below. Scale in cm.	Very low / GPC
			
1758	S31 18 44.1 E26 16 17.3	A 3 m long section of stone walling facing towards the southeast. Related to the ABW.	Medium / GPA
			
1759	S31 18 00.3 E26 15 41.4	This waypoint represents the most likely approximate point of engagement between the Boers and the British.	n/a
No photograph.			

1760	S31 18 46.7 E26 16 18.7	A 25 m long section of stone walling facing towards the southeast. The waypoints mark the ends. Related to the ABW.	Medium / GPA
1761	S31 18 47.2 E26 16 17.9		
			
1762	S31 18 47.6 E26 16 17.3	A 3 m long section of stone walling facing towards the southeast. Related to the ABW.	Medium / GPA
			
1763	S31 18 48.4 E26 16 15.6	This is an approximately 100 m long stone wall that is partly created by the natural dolerite dyke but with stone walling built up as and where needed along its length. The waypoints mark the ends. Related to the ABW.	Medium / GPA
1764	S31 18 49.8 E26 16 12.4		
			

1765	S31 18 50.7 E26 16 11.0	A 5 m long section of stone walling facing towards the south. Related to the ABW.	Medium / GPA
------	----------------------------	---	--------------

1766	S31 18 54.0 E26 16 16.9	There is a very dense scatter of LSA stone artefacts in an erosion gully in a valley. The scatter is all on hornfels and includes the endscraper and two adzes shown below.	Medium / GPA
------	----------------------------	---	--------------

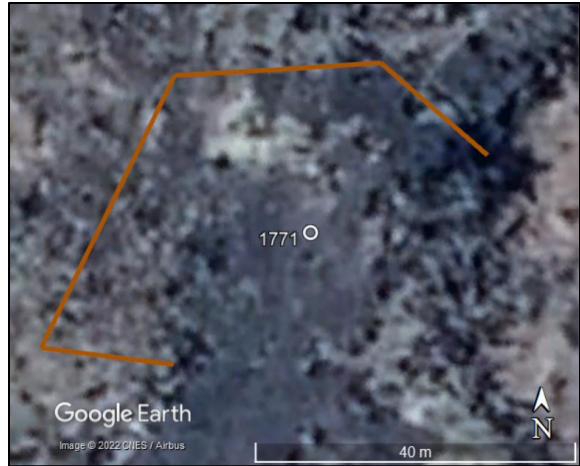

1767	S31 19 42.1 E26 15 56.9	This short section of walling is built up against a rock outcrop. Its length is oriented with the direction of the slope and it may have served to screen someone from the wind. It must be related to herder activity.	Low / GPB
			
1768	S31 19 39.1 E26 16 02.0	A line of stones about 5 m long and serving no apparent function. It must be related to herder activity.	Very low / GPC
			
1769	S31 19 31.2 E26 16 10.1	A low stone wall (largely just one stone high) in two sections and serving no apparent purpose. It must be related to herder activity.	Very low / GPC

1770	S31 19 30.3 E26 16 11.7	A small stone cairn assumed to be related to herder activity.	Very low / GPC
------	----------------------------	---	----------------

1771	S31 19 31.1 E26 16 13.6	A low-walled stone kraal of about 40 x 40 m but with the northern side being made from two wall sections at a slight angle and with the southern wall incomplete as shown in the Google Earth view below. The eastern side is formed by a rock outcrop.	Low / GPB
------	----------------------------	---	-----------

1772	S31 18 53.6 E26 16 34.1	This waypoint represents the approximate location of the Boer Laager. It was difficult to search in the grass, but no signs of any encampment could be located.	n/a
			
1773	S31 18 40.7 E26 16 34.7	A light scatter of LSA hornfels artefacts/ No photograph.	Very low / GPC
1774	S31 18 40.7 E26 16 34.2	A 10 m long section of stone walling facing towards the south. Related to the ABW.	Medium / GPA
			
1775	S31 18 40.6 E26 16 34.5	A 32 m long section of stone walling facing towards the south. The waypoints mark the ends.	Medium / GPA
1776	S31 18 40.1 E26 16 35.6		
			

1777	S31 18 38.4 E26 16 31.7	A low stone wall mostly just a single stone high that is not in a defensive position being below a ridge line and is thus assumed to not relate to the ABW.	Very low / GPC
			
1778	S31 18 39.7 E26 16 29.2	A 2 m diameter circular stone-walled feature located on a ridgeline. Related to the ABW.	Medium / GPA
			
1779	S31 18 42.4 E26 16 31.8	A stone wall located on a ridge line and facing towards the southeast. It was not visited but, from aerial photography, is estimated to be about 30 m long. Related to the ABW.	Medium / GPA

1780	<p>S31 18 40.9 E26 16 26.6</p>	<p>A 20 m long section of stone walling built along a dolerite dyke and facing towards the southeast. There is a ground patch on a dolerite rock alongside the wall. Related to the ABW.</p>	<p>Medium / GPA</p>
------	------------------------------------	--	---------------------

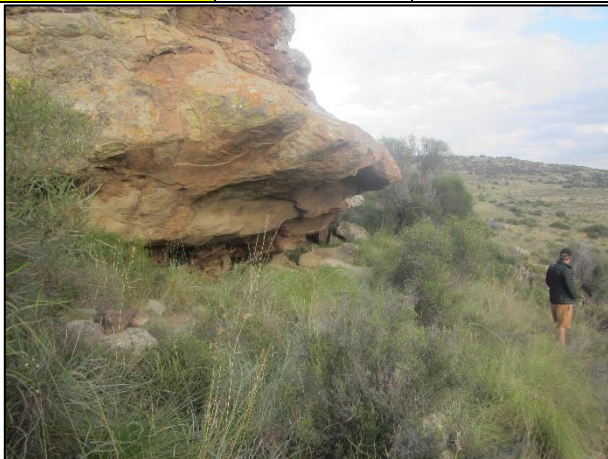

1781	S31 18 08.4 E26 16 07.3	A few rocks have been placed into a short wall underneath an overhanging boulder. There are some LSA hornfels artefacts in the area and the base of a wine bottle that had been used as a core was found. Scale in cm.	Low / GPB
 <p>This block contains three photographs. On the left is a wide shot of an archaeological site showing a short wall of rocks under an overhanging boulder, with green grass and shrubs. On the right are two close-up photos of dark, rounded hornfels artifacts held in a person's hand. A scale bar is visible at the bottom of the right-hand photos.</p>			
1782	S31 18 07.5 E26 16 06.0	A scatter of green and clear glass fragments among some sandstone boulders. Two fragments of brown transfer-printed refined white earthenware were found nearby. Some fragments of coal were also seen.	Very low / GPC
 <p>This block contains two photographs. The left photo shows a scatter of glass fragments (clear and green) and coal fragments on a sandy surface, with a scale bar at the bottom. The right photo shows two fragments of brown transfer-printed refined white earthenware held in a person's hand, with a scale bar at the bottom.</p>			
1783	S31 18 07.3 E26 16 03.5	A 2 m long section of stone walling facing towards the north. There do not appear to be other ABW features in this area, but the nature of the feature does not suggest any other function. It is thus assumed to relate to the ABW.	Medium / GPA

1784	S31 14 56.6 E26 13 37.0	To the east of the road there is an extensive stone wall surrounding an agricultural field. Such walls were built to keep livestock out of the field.	Medium / GPA
------	----------------------------	---	--------------

No photograph.

1785	S31 15 27.6 E26 15 13.2	This is a low rock shelter with some stone walling inside it and some rock art. The paintings include several yellow eland, two red eland and an enigmatic red image reminiscent of finger-painted geometric art. There are also some other faded images. Flaked stone artefacts in hornfels are also present and these include a thumbnail scraper and an endscraper. Scales in cm.	High / IIIA
------	----------------------------	--	-------------

1786	S31 17 14.9 E26 15 32.3	A railway bridge made with a concrete deck over stone walls.	High
------	----------------------------	--	------

1787	S31 17 43.9 E26 16 14.0	A railway bridge made with a steel deck over concrete and stone walls with a central pillar.	High
------	----------------------------	--	------

1788	S31 15 08.7 E26 13 58.0	Van Zyl family graveyard.	High / IIIA
------	----------------------------	---------------------------	-------------

1789	S31 18 06.9 E26 16 02.0	An ephemeral scatter of LSA artefacts in front of a rock shelter. Most are hornfels but a white rock also occurs. Also present was a copper object of unknown function.	Very low / GPC
------	----------------------------	---	----------------

880	S31 21 14.8 E26 20 07.7	Ephemeral scatter of quartzite and hornfels stone artefacts. They are weathered and likely MSA.	Very low / GPC
-----	----------------------------	---	----------------

881	S31 19 28.6 E26 18 22.9	An isolated musket ball.	Low / GPB
			
882	S31 19 28.4 E26 18 22.6	Ephemeral scatter of quartzite and hornfels stone artefacts. They are weathered and likely MSA. Scale in cm	Very low / GPC
			
883	S31 19 25.9 E26 18 25.7	A rock shelter with some ephemeral stone walling in it. Presumably related to herder activity.	Very low / GPC
			
884	S31 19 19.0 E26 18 27.3	A stone and cement dam wall with one part broken away.	Medium

885	S31 19 19.2 E26 18 28.6	A small rock shelter has been formed by a boulder balancing on another. There is a stone wall forming a semi-circle and two sections of stone and mud mortar walling underneath the roof boulder.	Low / GPB
-----	----------------------------	---	-----------

886	S31 19 19.8 E26 18 29.8	A natural amphitheatre between rock outcrops and with a straight section of ephemeral walling across the entrance. Some blue and green glass and some metal fragments were present.	Very low / GPC
-----	----------------------------	---	----------------

887	S31 18 18.3 E26 16 52.2	Three square stone features each about 2 m by 2 m in size. They are collapsed and not very clear. Some fragments of metal and green glass were present. Probably related to the ABW. Scale in cm.	Medium / GPA
-----	----------------------------	---	--------------

888	S31 18 17.7 E26 16 52.5	A stone circular feature of about 6 m by 5 m located in a neck with view down the shallow valley towards the railway line. Assumed to relate to the ABW.	Medium - GPA
-----	----------------------------	--	--------------

889	S31 18 18.2 E26 16 53.4	A stone feature measuring about 6m by 3 m located on an outcrop on the west side of the mountain. It affords views to north, west (towards railway line) and south. This is an ABW feature. There are also some stone artefacts here and one piece of glass. Scale in cm.	Medium / GPA
-----	----------------------------	---	--------------

890	S31 18 18.6 E26 16 54.1	A stone-walled feature measuring 6 m by 5 m and located on the same outcrop just behind waypoint 889. Also a strip of metal seen here. Assumed to relate to the ABW.	Medium / GPA
-----	----------------------------	--	--------------

891	S31 18 18.2 E26 16 55.8	A circular stone feature made with quite large blocks of rock. It is about 10 m by 6 m. Assumed to relate to the ABW.	Medium / GPA
-----	----------------------------	---	--------------

892	S31 18 18.5 E26 16 56.3	A light scatter of LSA hornfels artefacts. Scale in cm.	Very low / GPC
-----	----------------------------	---	----------------

893	S31 19 25.9 E26 18 25.7	A section of walling between two boulders. See photograph at 901. Related to the ABW.	Medium / GPA
-----	----------------------------	---	--------------

894	S31 18 17.2 E26 16 58.4	A light scatter of green glass fragments.	Very low / GPC
No photograph.			
895	S31 18 17.7 E26 16 58.5	A tiny overhang with an area of about 4 m by 2 m enclosed by stone walling. It offers a view towards the northwest and is likely an ABW feature.	Medium / GPA
			
896	S31 18 18.1 E26 16 59.3	An arc-shaped stone wall on top of the mountain and facing towards the south. It is about 10 m long and likely an ABW feature.	Medium / GPA
			
897	S31 18 17.3 E26 16 59.0	Two small stone walled features on the top of the mountain. One is square and 2 m across, the other is circular and 1 m across. They are likely ABW features.	Medium / GPA

898	S31 18 18.4 E26 16 59.5	A small C-shaped enclosure against a boulder. It is about 2 m across and looks towards the south. Assumed to be related to the ABW.	Medium / GPA
-----	----------------------------	---	--------------

899	S31 18 19.5 E26 16 56.9	A small C-shaped enclosure against a boulder. It is about 2 m across and looks towards the south. It might be a shepherd's shelter but is assumed to be related to the ABW.	Medium / GPA
-----	----------------------------	---	--------------

900	S31 18 19.7 E26 16 56.0	An ephemeral scatter of glass (clear and green) and metal fragments.	Very low / GPC
No photograph.			

901	S31 18 19.1 E26 16 55.5	A long line of stone walling running straight downhill towards the southwest. It must have screened soldiers facing towards the southeast. Some glass and metal were found near the upslope end of the wall. The small section of walling in the foreground of the photograph is waypoint 893. Assumed to be related to the ABW.	Medium / GPA
 <p>2022/3/21 13:28</p>			
902	S31 18 22.5 E26 16 56.8	A pile of stones of about 2 m across. It is unclear whether it is a pile of rocks or if it is a collapsed structure. Being low on the hill it is assumed to not be ABW-related.	Low / GPB
			
903	S31 16 37.1 E26 14 59.4	An isolated broken bored stone on the lower slope of a small ridge. There was no other LSA material in this area. Scale in cm.	Very low / GPC

904	S31 16 23.4 E26 15 23.2	A stone kraal of 14 m by 24 m built from dressed stone. There are two L-shaped walls on the north-western side. There were a few metal and glass fragments present. Scale in cm.	Medium / GPA
-----	----------------------------	--	--------------

905	S31 19 44.8 E26 22 55.1	A circular stone-walled enclosure in front of a small overhanging boulder and measuring about 2 m in diameter. This is presumably a herder-related structure.	Low / GPB
-----	----------------------------	---	-----------

906	S31 19 17.9 E26 22 56.2	A light scatter of MSA artefacts on orange-patinated hornfels. Scale in cm.	Very low / GPC
-----	----------------------------	---	----------------

907	S31 19 21.0 E26 22 54.8	A light scatter of MSA artefacts on orange-patinated hornfels.	Very low / GPC
-----	----------------------------	--	----------------

No photograph.

908	S31 20 03.3 E26 22 39.1	A stone-lined dam wall that has been breached.	Low / GPB
-----	----------------------------	--	-----------

909	S31 20 01.7 E26 22 38.0	An ephemeral scatter of weathered and well-patinated , MSA artefacts. Scale in cm.	Very low / GPC
-----	----------------------------	--	----------------

910	S31 19 43.1 E26 15 25.7	A stone-lined dam wall that has been breached.	Very low / GPC
-----	----------------------------	--	----------------

No photograph.			
911	S31 19 31.6 E26 15 12.0	A low rock shelter with several paintings in it. They include a yellow, left-facing eland torso, a therianthrope and a kaross-clad figure. Scales in cm.	High / IIIA
			
			
			
912	S31 19 27.7 E26 15 11.0	An ephemeral scatter of LSA hornfels artefacts.	Very low / GPC
No photograph.			
1790	S31 21 15.9 E26 20 13.1	A light scatter of LSA hornfels artefacts on the talus slope of a rock shelter.	Very low / GPC
No photograph.			

1791	S31 21 16.7 E26 20 13.7	A stone-walled kraal measuring about 10 m by 20 m. The wall does not completely surround the space.	Medium / GPA
			
1792	S31 21 17.6 E26 20 11.4	A light scattering of MSA quartzite artefacts exposed in an erosion gully.	Very low / GPC
			
1793	S31 20 32.2 E26 18 42.3	A concrete road bridge over a stream. Its age is unknown. Although this is the old road alignment, the bridge may be a newer build.	Medium
			
1794	S31 20 35.5 E26 18 37.5	A railway bridge built with a concrete deck over stone walls.	High

			
1795	S31 20 33.5 E26 18 36.2	A stone feature measuring about 3 m by 5 m.	Very low / GPC
			
1796	S31 20 33.8 E26 18 35.0	A light scatter of LSA artefacts on hornfels occurs alongside a low rock outcrop. There is also some glass here.	Very low / GPC
No photograph.			
1797	S31 20 35.2 E26 18 30.4	This is an isolated standing stone alongside a rock outcrop. Very unlikely to be a grave and does not face the right direction.	Very low / GPC
			
1798	S31 20 31.9 E26 18 35.4	Two adjoining stone features occur here. One is a smaller feature measuring 2 m by 4 m (left photograph), while the second is circular and measures 8 m in diameter (right photograph). A single standing stone is incorporated into the latter. A few stone artefacts occur in the area (likely background scatter) and a piece of flaked bottle glass was also seen. Scale in cm.	Low / GPB

1799	S31 19 37.6 E26 18 22.5	This farmstead was not examined in detail, but it was evident that it contained several historical stone structures.	High
------	----------------------------	--	------

1800	S31 19 32.6 E26 18 23.6	Some small stone cottages and ruins occur to the north of the farmstead at waypoint 1799. This cottage has a rectangular lower grindstone outside it that seems like an Iron Age grindstone. It is not likely to relate to the Iron Age but more likely was made by someone knowledgeable in the tradition of making them. A small, ruined feature occurs nearby.	Medium
------	----------------------------	---	--------

1801	S31 19 31.8 E26 18 27.3	This is another cottage to the north of the 1799 farmstead. All joinery has been removed. There is an indeterminate stone feature close to it.	Medium / GPA
------	----------------------------	--	--------------

1802	S31 19 24.7 E26 18 27.1	This is an informal farm workers' graveyard containing 24 graves. The graves have packed stone mounds and are located on a gentle slope below a rock outcrop and above a wetland.	High / IIIA
------	----------------------------	---	-------------

1803	S31 19 25.6 E26 18 31.8	This is an earthen-walled dam but both sides are lined with stones.	Low
			
1804	S31 19 25.1 E26 18 32.6	This rock shelter has a light scatter of LSA hornfels artefacts in it and the large fallen boulder has an area that has been ground smooth.	Low / GPB
			
1805	S31 19 24.1 E26 18 42.4	An excavation at the foot of a sandstone outcrop looks like it might have been into a spring. There is no formal walling and no water.	Very low / GPC
			
1806	S31 19 12.3 E26 18 35.2	This is a 7 m by 8 m stone-walled feature that is likely to have been a small kraal.	Low / GPB

			
1807	S31 19 11.5 E26 18 34.2	An isolated standing stone was found close to a stone-walled features (at waypoint 1806). The face of the stone faces towards the east and no other similar stones were seen nearby. There is also a farm boundary fence not too far away (about 100 m to the northeast). The sum suggests this might be a grave and is graded accordingly for precautionary reasons.	High / IIIA
			
1808	S31 19 12.5 E26 18 08.2	A large trench that seems most likely to be a borrow pit for road or railway construction. There are no spoil heaps so not likely to be coal mining-related. It pre-dates 1943 aerial photography.	n/a
			
1809	S31 19 22.8 E26 18 04.4	This is a row of stones that provides edging to a road and which the land owner said was once a district road. This appears to be the road referenced by Davitt (1902) as having been built 20 years prior to his writing.	Medium / GPA

1810	S31 19 27.8 E26 18 01.1	This dam has an earth wall lined with stones.	Low
------	----------------------------	---	-----

1811	S31 19 33.7 E26 18 14.8	This is another point along the old district road in waypoint 809. A small stone bridge/culvert has been built over a stream. The words "GEBOU DEUR PJ COETZER" are engraved onto one side of it. The photographs show opposite sides of the culvert.	Medium
------	----------------------------	---	--------

1812	S31 19 34.7 E26 18 15.2	Very close to 1811 is a second smaller stone culvert under the old district road (waypoints 809 and 811).	Medium
			
1813	S31 19 18.9 E26 17 37.9	This railway bridge is built of stone with two large arches and a concrete deck cast over the top.	High
			
1814	S31 18 24.8 E26 17 06.9	An indeterminate stone feature on flat ground at the foot of a hill. Seems unlikely to be related to the ABW.	Very low / GPC
			
1815	S31 18 24.0 E26 17 09.7	A low stone-packed wall of about 16 m length facing towards the southeast and located on flat ground at the foot of a hill. Despite its location, this may be an ABW defensive feature and is graded accordingly.	Medium / GPA

1816	S31 18 22.9 E26 17 10.6	A low stone-packed wall of about 5 m length facing towards the southeast and located on flat ground at the foot of a hill. There are also three small stone piles. Despite its location, this is likely an ABW defensive feature and is graded accordingly.	Medium / GPA
------	----------------------------	---	--------------

1817	S31 18 15.0 E26 17 36.7	This stone-packed feature is D-shaped and measures about 12 m by 9 m. The walls are roughly packed and the feature is a kraal.	Low / GPB
------	----------------------------	--	-----------

1818	S31 18 14.3 E26 17 36.7	Very close to the kraal at waypoint 1817 is a small stone feature that measures 3 m across and was likely a shepherd's hut.	Low / GPB
------	----------------------------	---	-----------

1819	S31 18 04.9 E26 17 43.0	This is a small, approximately square house ruin measuring about 4 m across. It has a doorway facing towards the east, a small window opening to the west and a window and two small 'muurkaste' (wall cupboards) in its south wall. The north wall is largely tumbled.	Medium / GPA
------	----------------------------	---	--------------

1820	S31 18 01.7 E26 17 36.2	A small square stone feature about 1 m across lies on top of a ridge. Many ABW features occur on this ridge, but this feature seems more likely to relate to herder activity.	Low / GPB
------	----------------------------	---	-----------

1821	S31 18 03.3 E26 17 36.0	Stone-packed wall of about 10 m length lies on the top of a ridge facing towards the southeast.	Medium / GPA
------	----------------------------	---	--------------

		Natural rock outcrop has been incorporated into the walling. Related to the ABW.	
			
1822	S31 18 03.9 E26 17 34.2	A 2 m long section of stone walling on a ridge and facing towards the south. Related to the ABW.	Medium / GPA
			
1823	S31 18 06.5 E26 17 34.3	A 3 m long section of stone walling located a short way below a ridge and facing towards the south. Related to the ABW.	Medium / GPA
			

1824	S31 18 06.8 E26 17 34.2	A 3 m long section of stone walling located a short way below a ridge and facing towards the south. Related to the ABW.	Medium / GPA
			
1825	S31 18 07.2 E26 17 33.4	An 11 m long section of stone walling located a short way below a ridge and facing towards the southeast. Related to the ABW.	Medium / GPA
			
1826	S31 18 05.7 E26 17 31.7	A 25 m long section of stone walling on a ridge and facing towards the southeast. Related to the ABW.	Medium / GPA
			
1827	S31 18 08.1 E26 17 33.1	A 3 m long section of stone walling located on a ridge and facing towards the southeast. Related to the ABW.	Medium / GPA

1828	S31 18 08.7 E26 17 33.3	A 4 m long section of stone walling located on a ridge and facing towards the southeast. Related to the ABW.	Medium / GPA
1829	S31 18 09.0 E26 17 33.1	Four stone-packed features occur close together over a 30 m distance on top of a ridge. The individual features are 3 m, 3 m, 5 m and 12 m long. They all face towards the southeast. One of them has a ground dolerite slab alongside it. Related to the ABW.	Medium / GPA
1830	S31 18 09.5 E26 17 32.2		

1831	S31 18 10.6 E26 17 31.2	A 2 m long section of stone walling located on a ridge and facing towards the south. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1832	S31 18 09.9 E26 17 30.2	A 2 m long section of stone walling located on a ridge and facing towards the south. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1833	S31 18 09.8 E26 17 28.8	A 12 m long section of stone walling located on a ridge and facing towards the southeast. Related to the ABW.	Medium / GPA
------	----------------------------	---	--------------

1834	S31 18 10.2 E26 17 28.2	A 4 m long section of stone walling located on a ridge and facing towards the southeast. Related to the ABW.	Medium / GPA
------	----------------------------	--	--------------

1835	S31 18 10.5 E26 17 27.7	A 5 m long section of stone walling located on a ridge and facing towards the south. Related to the ABW.	Medium / GPA
			
1836	S31 18 06.4 E26 17 24.4	A 12 m long section of stone walling located on a ridge and facing towards the south. Related to the ABW.	Medium / GPA
			
1837	S31 18 06.3 E26 17 24.0	This long stone wall extends over a distance of about 90 m along the top of a ridge. It faces towards the south. At one point a stone with chopping marks on it was seen, and elsewhere a metal item was found (scale in cm). The wall extends between the two waypoints. Related to the ABW.	Medium / GPA
1838	S31 18 06.9 E26 17 20.8		

1839	S31 18 06.9 E26 17 19.5	A 15 m long section of stone walling located on a ridge and facing towards the south.	Medium / GPA
1840	S31 18 06.5 E26 17 17.9	A 20 m long section of stone walling located on a ridge and facing towards the south. It extends between the two waypoints. Related to ABW.	Medium / GPA
1841	S31 18 06.6 E26 17 17.2		

1842	S31 18 06.8 E26 17 16.6	An 8 m long section of stone walling located on a ridge and facing towards the south. Related to ABW.	Medium / GPA
------	----------------------------	---	--------------

1843	S31 18 07.4 E26 17 15.6	An 8 m long section of stone walling located on a ridge and facing towards the south. Related to ABW.	Medium / GPA
------	----------------------------	---	--------------

1844	S31 18 09.2 E26 17 16.2	A 7 m long arc-shaped section of stone walling located on a ridge and facing towards the southeast. Related to ABW.	Medium / GPA
------	----------------------------	---	--------------

1845	S31 18 09.2 E26 17 16.7	A 1 m long section of stone walling located on a ridge and facing towards the southeast. Related to ABW.	Medium / GPA
------	----------------------------	--	--------------

1846	S31 18 08.8 E26 17 18.3	A 1 m long section of stone walling located on a ridge and facing towards the southeast. Related to ABW.	Medium / GPA
			
1847	S31 18 08.8 E26 17 19.4	A 1 m long section of stone walling located on a ridge and facing towards the southeast. Related to ABW.	Medium / GPA
			
1848	S31 18 08.3 E26 17 13.8	A 1 m long section of stone walling located on a ridge and facing towards the southeast. With a small stone cairn located very close to the wall. Related to ABW.	Medium / GPA

1849	S31 18 08.5 E26 17 13.4	A 2 m long section of stone walling located on a ridge and incorporating a natural rock outcrop. It faces towards the southeast. Related to ABW.	Medium / GPA
			
1850	S31 18 10.9 E26 17 12.8	This is a small stone-walled feature measuring about 2 m by 2 m and located just behind a rock outcrop. It is assumed to be related to the ABW. Related to ABW.	Medium / GPA
			
1851	S31 18 11.2 E26 17 13.2	LSA stone artefacts on hornfels were fairly common in this area and this location was recorded as an example.	Very low / GPC
