Umlando cc was requested to quote for two proposed borrow pits north of Pongola. The borrow pits are near Itshelajuba Hospital.

Umlando has previously surveyed the hills directly above the proposed borrow pits for Eskom Holdings (2001), and MTN (2009). These reports have been submitted to Amafa KZN. The two sites consist of modern human graves.

We do not believe there is a need to quote for these borrow pits. There is thus no reason to resurvey the area of the proposed borrow pits

FIG. 1: GENERAL LOCATION OF THE PROPOSED BORROW PITS AND PREVIOUSLY RECORDED SITES
