ABOUT MAWENJE CONSULTING

ABOUT US

Mawenje Consulting (Pty) Limited is a sustainability consulting firm focusing on serving any organisation or individual who may require sustainability and environmental services within the energy, mining, manufacturing, agriculture, development, forestry, conservation, communication, tourism and Infrastructure finance & development sectors of Africa. Africa is endowed with a strong natural resource base and the same natural resources are pivotal to the advancement of the continent if the resources are managed and utilised in a sustainable manner or in the best practical environmental manner. Environmental management and sustainable development have become business imperatives in the 21st century.

Mawenje Consulting brings the required skills base through a network of associates and partners to address the sustainable development challenges facing the continent of Africa. The firm's primary business is the provision of professional sustainability and environmental consulting services. The company is 100% black owned and employs scientists located in seven countries, with extensive accumulated experience in all aspects of sustainability and environmental consulting. Mawenje Consulting Africa is the name of the South African registered private company that is based in Pretoria, South Africa. The Pretoria office also acts as the International business control centre.

MISSION STATEMENT

We give our clients solutions that add value to their operations and give them a competitive edge.

VALUES

-  Integrity
-  Diligence
-  Professionalism.

VISION

The vision of Mawenje Consulting is to be the leading provider of multidisciplinary sustainability consulting services in Africa. The firm seeks to empower both public and private sector players in Africa to contribute meaningfully towards global efforts on sustainable development. Mawenje

Consulting is a pan-African business working closely with public and private sector partners throughout Africa. At the heart of the mission of Mawenje Consulting lies the desire to ensure that Africa and its people can better benefit from sustainably managed natural resources on which the whole world economic growth depends.

SERVICES OFFERED

Our dynamic team of dedicated professionals deliver customer designed consulting services across all sectors in Africa. Mawenje Consulting combines a core staff of internationally recognized experts with a network of associated professionals from over seven countries with the aim of providing world class knowledge to every project. From the onset, advice to our clients considers the requirements of local, regional and national environmental planning instruments, policies and legislation. The six key service offerings of the firm include the following:

- 1. Project Management**
- 2. Environmental Management**
- 3. Natural Resources Management**
- 4. SHEQ Training**
- 5. Climate Change and Clean Development Mechanism (CDM)**
- 6. Project Feasibility.**
