PROFILE

About EnviroSynergy

EnviroSynergy Consulting (ESC) is a **level 4 BEE company** that specialises in environmental consulting services relating to statutory environmental compliance processes in South Africa. ESC is passionate about delivering informative consulting services and providing a good quality process in line with the client's specific environmental compliance needs.

Registered with the South African Council
for Natural Scientific Professions

(Cert.Sci.Net. 300176/15)

**“Making Sense of Environmental
Compliance”**

Background

EnviroSynergy Consulting (Pty) Ltd (ESC) is an independent environmental consulting company. Our mission statement **“Making Sense of Environmental Compliance”** echoes our aim to make environmental processes better understood by our clients. This is achieved by educating our clients to become increasingly informed in environmental compliance and to empower them to manage their risk more effectively.

Our current economic climate is complex but our environmental legislation remains on par with the most progressive global standards. Given this backdrop, we have a real opportunity to achieve **sustainability** as a country.
