Dear Mr Marais

AMENDMENT OF ENVIRONMENTAL AUTHORISATION ISSUED ON 21 MAY 2021 FOR THE 132KV GRID ALIGNMENT AND 132KV ESKOM PORTION OF THE SHARED ON-SITE SUBSTATION FOR THE 100MW LOERIESFONTEIN 3 PHOTOVOLTAIC (PV) SOLAR ENERGY FACILITY (SEF) NEAR LOERIESFONTEIN, NORTHERN CAPE PROVINCE.

The Environmental Authorisation (EA) for the above-mentioned project dated 21 May 2021, the application for amendment of the EA received on 26 October 2022, the draft Motivation Report received by the Department on 24 January 2023, the Department's comments dated 22 February 2023 and the final Motivation Report received by Department on 27 February 2023 refer.

Based on a review of the reason for requesting an amendment to the above EA, this Department, in terms of Chapter 5 of the Environmental Impact Assessment Regulations, 2014 as amended, has decided to amend the EA dated 21 May 2021 as amended, as follows:

Amendment 1: Extension of the validity of the EA by additional five (05) years

From:

"7. This activity must commence within a period of ten (10) years from the date of the first issue of the Environmental Authorisation (i.e. the EA lapses on 29 October 2022). If commencement of the activity does not occur within that period, the authorisation lapses and a new application for Environmental Authorisation must be made in order for the activity to be undertaken."

MS.

To:

"7. This activity must commence within a period of fifteen (15) years from the date of the first issue of the Environmental Authorisation (i.e. the EA lapses on 29 October 2027). If commencement of the activity does not occur within that period, the authorisation lapses and a new application for Environmental Authorisation must be made for the activity to be undertaken."

Reason for amendment:

The project needs additional time for the IPP to obtain funding and for construction of the SEF and associated grid connection infrastructure to commence before the respective EAs lapse.

The Department is aware that the environment changes constantly, as a result it might be significantly different from the one that existed at the time of the issuing of the initial EA, hence the EMPr must be amended to include the additional mitigation measures as recommended and dictated by the various Comparative Assessment Statements submitted in the final Motivation Report dated February 2023. Once amended, the final EMPr must be submitted to the Department for written approval prior to commencement of the activity. Once approved, the EMPr must be implemented and adhered to.

All recommendations included in the updated specialist studies must be implemented and adhered to.

This proposed amendment letter must be read in conjunction with the EA dated 21 May 2021, as amended.

In terms of the Promotion of Administrative Justice Act, 2000 (Act No 3 of 2000), you are entitled to the right to fair, lawful and reasonable administrative action; and to written reasons for administrative action that affects you negatively. In terms of Regulation 4(2) of the Environmental Impact Assessment Regulations, 2014, as amended (the EIA Regulations), you are instructed to notify all registered interested and affected parties, in writing and within 14 (fourteen) days of the date of the EA, of the Department's as well as the provisions regarding the submission of appeals that are contained in the Regulations.

Kindly include a copy of this document (National Appeal Regulations, 2014) with the letter of notification to interested and affected parties in this matter.

Should any person wish to lodge an appeal against this decision, he/she must submit the appeal to the appeal administrator, and a copy of the appeal to the applicant, any registered interested and affected party, and any organ of state with interest in the matter within 20 days from the date that the notification of the decision was sent to the registered interested and affected parties by the applicant; or the date that the notification of the decision was sent to the applicant by the Department, whichever is applicable.
