### PER EMAIL / MAIL

Dear Mr Venn

### AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION ISSUED ON 26 JANUARY 2023 FOR THE DEVELOPMENT OF UMBILA EMOYENI WIND ENERGY FACILITY, MPUMALANGA PROVINCE

The Environmental Authorisation (EA) issued for the abovementioned application by this Department on 26 January 2023, your application for amendment of the EA received by the Department on 19 April 2023 and the acknowledgement letter dated 24 April 2023 refer.

Based on a review of the reason for requesting an amendment to the above EA, this Department, in terms of Chapter 5 of the Environmental Impact Assessment Regulations, 2014 as amended, has decided to amend the EA dated 26 January 2023 as follows:

#### Amendment 1: Amendment of the Applicant details of the EA

##### From:

*Emoyeni Renewable Energy Farm (Pty) Ltd*

##### With following postal address:

POSTNET Suite 216  
Private Bag X26  
Tokai  
**CAPE TOWN**  
6001

*M.S*

**To:**

Umbila Emoyeni (Pty) Ltd

With following postal address:

PO BOX 639  
Northlands  
**JOHANNESBURG**  
2196

**Reason for amendment:**

The current holder, Emoyeni Renewable Energy Farm (Pty) Ltd wishes to transfer the EA to Umbila Emoyeni (Pty) Ltd, a Special Purpose Vehicle (SPV) constituted for the project. Umbila Emoyeni (Pty) Ltd accepts full responsibility for the EA. This SPV is fully owned by Seriti Green Developments, who also own Emoyeni Renewable Energy Farm (Pty) Ltd.

**Amendment 2: Amendment of conditions 12 and 13 on page 11 of the EA**

**From:**

12. A copy of the final site layout map must be made available for comments by registered Interested and Affected Parties and the holder of this environmental authorisation must consider such comments. Once amended, the final development layout map must be submitted to the Department for written approval prior to commencement of the activity. All available biodiversity information must be used in the finalisation of the layout map. Existing infrastructure must be used as far as possible e.g., roads. The layout map must indicate the following:
  - 12.1 The position of wind turbines and associated infrastructure;
  - 12.2 Internal roads indicating width;
  - 12.3 Wetlands, drainage lines, rivers, stream and water crossing of roads and cables;
  - 12.4 All sensitive features e.g., Important Bird Areas, Critical Biodiversity Areas, Ecological Support Areas, heritage sites, wetlands, pans and drainage channels that will be affected by the facility and associated infrastructure;
  - 12.5 The BESS, substation(s) inverters and/or transformer(s) sites including their entire footprint;
  - 12.6 Connection routes (including pylon positions) to the distribution/transmission network;
  - 12.7 All existing infrastructure on the site, such as roads;
  - 12.8 Soil heaps (temporary for topsoil and subsoil and permanently for excess material);
  - 12.9 Buildings, including accommodation; and,
  - 12.10 All "no-go" and buffer areas.
- 13 The Environmental Management Programme (EMPr) for the facility submitted as part of the EIAR is not approved and must be amended to include measures as dictated by the final site lay-out map and micro-siting, and the provisions of this environmental authorisation. The EMPr must be made available for comments by registered Interested and Affected Parties and the holder of this environmental authorisation must consider such comments. Once amended, the final EMPr must be submitted to the Department for written approval prior to commencement of the activity. Once approved the EMPr must be implemented and adhered to."

**To:**

12. **The project will be developed in phases.** A copy of the final site layout map, **per phase**, must be made available for comments by registered Interested and Affected Parties, **as applicable per phase**, and the holder of this environmental authorisation must consider such comments. Once amended, the final development layout map **per phase** must be submitted to the Department for written approval prior to commencement of the activity. All available biodiversity information **applicable for the relevant phase** must be used in the finalisation of the layout map. Existing infrastructure must be used as far as possible e.g., roads. The layout map must indicate the following:
- 12.1. The position of wind turbines and associated infrastructure;
  - 12.2. Internal roads indicating width;
  - 12.3. Wetlands, drainage lines, rivers, stream and water crossing of roads and cables;
  - 12.4. All sensitive features e.g., Important Bird Areas, Critical Biodiversity Areas, Ecological Support Areas, heritage sites, wetlands, pans and drainage channels that will be affected by the facility and associated infrastructure;
  - 12.5. The BESS, substation(s) inverters and/or transformer(s) sites including their entire footprint;
  - 12.6. Connection routes (including pylon positions) to the distribution/transmission network;
  - 12.7. All existing infrastructure on the site, such as roads;
  - 12.8. Soil heaps (temporary for topsoil and subsoil and permanently for excess material);
  - 12.9. Buildings, including accommodation; and
  - 12.10. All "no-go" and buffer areas.
13. The Environmental Management Programme (EMPr) for the facility submitted as part of the EIAR is not approved and must be amended to include measures as dictated by the final site lay-out map and micro-siting, **per phase**, and the provisions of this environmental authorisation. The EMPr must be made available for comments by registered Interested and Affected Parties, **as applicable per phase**, and the holder of this environmental authorisation must consider such comments. Once amended, the final EMPr must be submitted to the Department for written approval prior to commencement of the activity. Once approved the EMPr must be implemented and adhered to.

**Amendment 3: Inclusion of a Condition to the EA:**

The following condition is herewith added into the EA:

13A. The layout plan and EMPr to be submitted per applicable phase must include the linkage and details of the previous phase (if applicable) as well as indicating the remaining extent/phases yet to be submitted for approval.

**Reason for amendment:**

The motivation for applying for the full development remains unchanged, i.e., it is the intention of the applicant to develop the WEF in commercially viable phases which can either feed into the national grid via the Renewable Energy Independent Power Producer Procurement Programme (REIPPPP) or provide power to third-party off-takers (wheeling). In this instance, an off-taker will not procure 900MW in once instance, it is likely that buyers of the power will seek to purchase between 100MW and 150MW of renewable energy.

Both conditions 12 and 13 of the EA do not provide for the implementation of the project in phases. Emoyeni Renewable Energy Farm (Pty) Ltd is therefore requesting a change in the wording of these conditions to clearly indicate that the finalisation of the layout and the EMPr will be completed within phases, as stated in the Final EIA report. This amendment will not change the scope of the assessment or the EA as the total capacity of the facility and the extent of authorised infrastructure will not be exceeded. It will only allow the project to be constructed in an appropriate and responsible manner.

This proposed amendment letter must be read in conjunction with the EA dated 26 January 2023.

*MS*

In terms of the Promotion of Administrative Justice Act, 2000 (Act No 3 of 2000), you are entitled to the right to fair, lawful and reasonable administrative action; and to written reasons for administrative action that affects you negatively. Further your attention is drawn to the provisions of the Protection of Personal Information Act, 2013 (Act no. 4 of 2013) which stipulate that the Department should conduct itself in a responsible manner when collecting, processing, storing and sharing an individual or another entity's personal information by holding the Department accountable should the Department abuse or compromise your personal information in any way.

In terms of Regulation 4(2) of the Environmental Impact Assessment Regulations, 2014, as amended (the EIA Regulations), you are instructed to notify all registered interested and affected parties, in writing and within 14 (fourteen) days of the date of the EA, of the Department's as well as the provisions regarding the submission of appeals that are contained in the Regulations.

Your attention is drawn to Chapter 2 of National Environmental Management Act, 1998 (Act No. 107 of 1998) National Appeal Regulations published under Government Notice R993 in Government Gazette No. 38303 dated 08 December 2014 (National Appeal Regulations, 2014), which prescribes the appeal procedure to be followed. Kindly include a copy of this document (National Appeal Regulations, 2014) with the letter of notification to interested and affected parties in this matter.

Should any person wish to lodge an appeal against this decision, he/she must submit the appeal to the appeal administrator, and a copy of the appeal to the applicant, any registered interested and affected party, and any organ of state with interest in the matter within 20 days from the date that the notification of the decision was sent to the registered interested and affected parties by the applicant; or the date that the notification of the decision was sent to the applicant by the Department, whichever is applicable.

**Appeals must be submitted in writing in the prescribed form to:**

The Director: Appeals and Legal Review of this Department at the below mentioned addresses.

By email: [appeals@dffe.gov.za](mailto:appeals@dffe.gov.za)

By hand: Environment House  
473 Steve Biko,  
Arcadia,  
Pretoria,  
0083

or

By post: Private Bag X447,  
Pretoria,  
0001

Please note that in terms of Section 43(7) of the National Environmental Management Act, Act No. 107 of 1998, as amended, the lodging of an appeal will suspend the environmental authorisation, or any provision or condition attached thereto. In the instance where an appeal is lodged, you may not commence with the activity until such time that the appeal is finalised.

MS

To obtain the prescribed appeal form and for guidance on the submission of appeals, please visit the Department's website at [https://www.environment.gov.za/documents/forms#legal\\_authorisations](https://www.environment.gov.za/documents/forms#legal_authorisations) or request a copy of the documents at [appeals@dffe.gov.za](mailto:appeals@dffe.gov.za)

Yours faithfully

**Mr Sabelo Malaza**  
**Chief Director: Integrated Environmental Authorisations**  
**Department of Forestry, Fisheries and the Environment**  
**Date:** 15/05/2023
