Ref No.: NW 30/5/1/2/3/2/1/ (131) EM

The Environmental Manager  
Impala Platinum Limited  
Private Bag X 18  
Northland

Attention: Ms A Kgaswane

**ADDENDUM / ENVIRONMENTAL AUTHORISATION IN TERMS OF REGULATION 33 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) (AS AMENDED) (HEREIN REFERRED TO AS "NEMA") AND THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2017 (HEREIN REFERRED TO AS "EIA") IN RESPECT OF PORTION 3 OF THE FARM REINKOYALSKRAAL 278 JQ IN THE RUSTENBURG DISTRICT.**

With reference to the above-mentioned application, please be advised that the Department has decided to **grant** the Environmental Authorization in terms Regulation 24(1) (a) of the National Environmental Management Act (Act 107 of 1998): EIA Regulations, 2014. The Environmental Authorization and reasons for the decision are attached herewith.

In terms of regulation 4 (2) of the NEMA: EIA Regulations, 2014 you are instructed to notify all registered interested and affected parties in writing within 14 (fourteen) calendar days, from the date of the Department's decision in respect of your application and the relevant provisions regarding the lodgement of appeal must be provided for in terms of the National Appeal Regulations of 2014.

Should you wish to appeal any aspect of the decision, you must submit the appeal to the Minister of the Department of Environmental Affairs and a copy of such appeal to the Department of Mineral Resources (North West Regional Office) within 20 days from the date of notification and such appeal must be lodged as prescribed in terms of Chapter 2 of the National Appeal Regulations of 2014, by means of the methods as prescribed.

**Appeal to the Department of Environmental Affairs**

**Attention** : Directorate Appeals and Legal Review

## ENVIRONMENTAL AUTHORISATION

**Reference number:** NW 30/5/1/2/3/2/1/ (131) EM  
**Holder of authorisation:** Impala Platinum Limited  
**Location of activity** Portion 3 of the farm Reinkoyalskraal 278 JQ

## DECISION

### ACRONYMS

**NEMA** : National Environmental Management Act, 1998 (Act 107 of 1998) (as amended)  
**DEPARTMENT** : Department of Mineral Resources.  
**EA** : Integrated Environmental Authorization.  
**EA** : Integrated Environmental Authorization.  
**EMPr** : Environmental Management Programme  
**BAR** : Basic Assessment Report  
**I&AP** : Interested and Affected Parties  
**ECO** : Environmental Control Officer  
**SAHRA** : South African Heritage Resources Agency  
**EIA REGULATIONS** : EIA Regulations, 2014  
**MPRDA** : Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002), as amended  
**NEMA** : National Environmental Management Act, 1998 (Act No.107 of 1998) as amended  
**NEMWA** : National Environmental Management: Waste Act, 2008 (Act 59 of 2008), as amended  
**EIA** : Environmental Impact Assessment.

The Department is satisfied, based on information available to it and subject to compliance with the conditions of this integrated environmental authorisation, that the applicant should be authorised to undertake the **NEMA EIA** and **NEM: WA** listed activities specified below. Details regarding the basis on which the Department reached this granting decision are set out in **Annexure "1"** and **2** of this environmental authorisations.

**ACTIVITIES APPLIED FOR AND AUTHORISED**

By virtue of the powers conferred to it by NEMA, the Department hereby grants an EA to **Impala Platinum Limited** with the following contact details:

Private Bag X 18  
 Northlands  
 2116

To undertake the following activities listed in the NEMA EIA Regulations, 2014.

**Detailed specifications of the activities are as follows:**

<b>Proposed activity details</b>
Clearance of indigenous vegetation on portion 3 of the farm Reinkoyalskraal 278 JQ
<b>Description of the overall activities.</b>
<ol style="list-style-type: none"> <li>1. Clearance of indigenous vegetation on an area not exceeding 2,5 ha</li> <li>2. Construction of additional 672 covered parking bays, the inclusion of a dedicated taxi pick-up, drop off and waiting area</li> </ol>

The granting of this EA is subject to the conditions set out below (site specific) and in **Annexure 2** (Departmental standard conditions). The Environmental Management Programme (EMPr) attached as part of reports for the above development submitted as part of the application for an EA is hereby approved and must be adhered to throughout the life cycle of the operation.

**EA SITE SPECIFIC CONDITIONS**

1. All mitigation measures detailed in the basic basement report must be implemented as indicated.
2. This environmental authorization is granted as an addendum to the approved environmental programme / environmental authorization.
3. Archeological screening must be continuously undertaken during construction of the expansion activities.

4. Vegetation clearance must be limited on areas where the individual activities will occur, and mitigation measures must be implemented to reduce the risk of erosion and alien species invasion.
5. The holder of EA must note that in terms of the National Forest Act (Act No.84 of 1998) protected plant species, must not be cut, disturbed, damaged, destroyed and their products must not be possessed, collected, removed, transported, exported, donated, purchased or sold unless permission is granted by the Department of Agriculture, Forestry and fisheries.

## **ANNEXURE 1: REASONS FOR THE DECISION**

### **1. Background**

Impala Platinum Limited applied for an EA for activities listed in the EIA Regulations of 2017 as amended for activities stipulated on this integrated environmental authorization.

### **2. Information considered in making the decision**

In reaching its decision, the Department took, *inter alia*, the following into consideration -

- a) The information contained in the application form received by the Department on 7 September 2021.
- b) The information contained in the Basic Assessment Report received by the Department on 19 November 2021.
- c) The objectives and requirements of the applicable and relevant legislation, policies and guidelines and the EIA Regulations of 2017.
- d) Proof of the Public Participation Process (PPP).

### **3. Key factors considered in making the decision**

All the information presented to the Department was considered upon the Department's consideration of the application. A summary of the issues which, in the Department's view, were of the most significance is set out below.

- a) The procedure that has been followed is in accordance with the NEMA and the EIA Regulations of 2017.
- b) The environmental impacts associated with the proposed activity has been addressed by the proposed mitigation measures outlined in the Basic Assessment Report compiled by Rizqah Baker and reviewed by Ed Perry of SLR Consulting (Africa) (Pty) Ltd.
- c) The Public Participation Process (PPP) undertaken, in compliance with the requirements as prescribed in the EIA regulations, 2017.
- d) The Financial provision amount of R1, 915, 011.83 submitted to cater for premature closure.

#### 4. Findings

After consideration of the information and factors listed above, the Department made the following findings –

- a) The potential impacts on the proposed site were clearly investigated and mitigation measures outlined.
- b) Public Participation Process (PPP) complied with Chapter 6 of the EIA Regulations R.982. The PPP included *inter-alia*, the following:
- c) The Public Participation Process (PPP) undertaken in compliance with the requirements as prescribed in Regulation 41 of the EIA regulations, 2017 for public involvement attached as Appendix 7 of the EIR. The newspaper advertisements in the Daily Sun on 2 June 2021 and the Rustenburg Herald on 4 June 2021, the site notices placed on the mine and areas surrounding the mine area, notification letters and background information document to interested and affected parties to interested and affected parties. The pre-application meeting with the competent authority and the minutes of the meetings and presentations to the Impala and mining community leadership and engagement forum on 30 August 2021.

### ANNEXURE 2: DEPARTMENTAL STANDARD CONDITIONS

#### 1. SCOPE OF AUTHORISATION

- 1.1. The holder of EA is responsible for ensuring compliance with the conditions contained in this EA and the BAR and EMPr. This includes any person acting on the holder's behalf, including but not limited to an agent, servant, contractor, subcontractor, employee, consultant, or any person rendering a service to the holder of EA.
- 1.2. Any changes to, or deviation from the project description set out in this EA must be approved in writing by this Department before such changes or deviation may be effected. In assessing whether to grant such approval or not, the Department may request such information as is deems necessary to evaluate the significance and impacts of such changes or deviation and it may be necessary to the holder of the EA to apply for further authorization in terms of the EIA Regulations.
- 1.3. The activities, which are authorized, may only be carried out at the property (ies) indicated in the EA and or on the approved EMPr.
- 1.4. Where any of the holder's of the EA contact details change including name of the responsible person, physical or postal address/ or telephonic details, the holder of the EA must notify the Department as soon as the new details become known to the holder of the EA.
- 1.5. The EA does not negate the responsibility of the holder to comply with any other statutory requirements that may be applicable to the undertaking of such activity.

#### 2 APPEAL OF AUTHORISATION

- 2.1 The holder of EA must in writing, within 14 (fourteen) calendar days from the date of this decision and in accordance with EIA Regulation 4(2) do the following:
- 2.2 Notify all registered I&APs of –
  - 2.2.1 The outcome of the application.
  - 2.2.2 The date of the decision.
  - 2.2.3 The date of issue of the decision and
  - 2.2.4 The reasons for the decision as included in Annexure 1 and Departmental Standard Conditions in Annexure 2.
- 2.3 Draw the attention of all registered I&APs to the fact that an appeal may be lodged against the decision in terms of the National Appeals Regulations,
- 2.4 Draw the attention of all registered I&APs to the manner in which they may access the decision.
- 2.5 Provide the registered I&APs with:
  - 2.5.1 Name of the holder (entity) of this EA
  - 2.5.2 Name of the responsible person for this EA
  - 2.5.3 Postal address of the holder
  - 2.5.4 Telephonic and fax details of the holder and
  - 2.5.5 E-mail address of the holder if any

### **3. COMMENCEMENT OF THE ACTIVITIES**

- 3.1 This EA and EMPPr/EIAr must be provided to the site operator and the requirements thereof must be made fully known to him or her.
- 3.2 Hauling routes for construction vehicles and machinery must be clearly marked and appropriate signaling must be posted to that effect. Furthermore, movement of construction vehicles and machinery must be restricted to areas outside of the drainage line or wet areas.
- 3.3 Appropriate notification sign must be erected at the construction site, warning the public (residents, visitors etc.) about the hazard around the construction site and presence of heavy vehicles and machinery.
- 3.4 Construction areas (e.g. material lay down areas), topsoil and subsoil must be protected from contamination or pollution. Stockpiling must not take place in drainage lines or areas where it will impede surface water runoff.
- 3.5 Contaminated soil must be removed to a licensed waste disposal facility and the site must be rehabilitated to the satisfaction of the Department and Department of Water and Sanitation. The opportunity for the onsite remediation and re-use of contaminated soil must be investigated prior to the disposal and this Department must be informed in this regard.
- 3.6 An integrated waste management approach must be implemented that is based on waste minimization and must incorporate avoidance, reduction, recycling, treat, reuse and disposal where appropriate. Uncontaminated rubble generated on the premises can be re-used as back filling material on site.

Ensure that no refuse or rubble generated on the premises is placed, dumped or deposited on the adjacent properties or public places and open space.

- 3.7 In terms of sections 28 and 30 of NEMA, and sections 19 and 20 of the National Water Act, 1998 (Act No. 36 of 1998), any costs incurred to remedy environmental damage must be borne by the person responsible for the damage. It is therefore imperative that the holder of the EA reads through and understand the legislative requirements pertaining to the project. It is the holder of EA responsibility to take reasonable measures which include informing and educating contractors and employees about environmental risks of their work and training them to operate in an environmentally acceptable manner.
- 3.8 Construction vehicle must be serviced and maintained in the manner whereby no excessive smokes and noise production is reduced to acceptable levels, and to prevent oil leaks. Contaminated soil must be remediated on site or removed to an authorized landfill site.
- 3.10 Dust suppression measures must be implemented on all exposed surface to minimize and control airborne dust.
- 3.11 Mixing of cement, concrete, paints, solvent, sealants and adhesive must be done in specified areas on concrete aprons or on protected plastic linings to contain spillage or overflow onto soil to avoid contamination of underground water and environmental damage.
- 3.12 Should any heritage remains be exposed during operation or any actions on the site, these must immediately be reported to the South African Heritage Resource Agency (SAHRA) (in accordance with the applicable legislation). Heritage remains uncovered or disturbed during earthworks must not be further disturbed until the necessary approval has been obtained from the South African Heritage Resource Agency (SAHRA). Heritage remains include archaeological remains (including fossil bones and fossil shells); coins; middens, indigenous and/or colonial ceramics; any articles of value or antiquity; marine shell heaps; stone artifacts and bone remains; structures and other built features; rock art and rock engravings; shipwrecks; and graves or unmarked human burials. A qualified archaeologist must be contracted where necessary (at the expense of the applicant and in consultation with the relevant authority) to remove any human remains in accordance with the requirements of the relevant authority.
- 3.13 Care must be taken to ensure that the material and excavated soil required for backfilling are free of contamination from hydrocarbons.
- 3.14 Hydraulic fluid or chemicals required during construction must be stored in a concrete lined surface with bund walls and shall be designed in such a manner that any spillage can be contained and reclaimed without any impact on the surrounding environment. Should any spill occur it should be cleaned immediately by removing spillage together with the polluted solids and dispose it in the authorized disposal site permitted of such waste. The regional office of the Department of Water and Sanitation must be notified within 24 hours of an incident that may pollute surface and underground water resources.

- 3.15 Chemical sanitation facilities or system such as toilets that do not rely on the seepage of liquids must be provided with a ratio of 1 for every 15 workers. These must be placed such that they prevent spills or leaks to the environment and must be maintained according to the operating instructions and the content thereof must be disposed of at an authorized wastewater treatment works.
- 3.16 The holder of EA must ensure that any water uses listed in terms of Section 21 of National Water Act must get authorization from Department of Water and Sanitation prior to the commencement of such activity (ies).
- 3.17 This EA does not purport to absolve the holder of EA from its common law obligations towards the owner of the surface of land affected.
- 3.18 The holder of EA must ensure that rehabilitation of the disturbed areas caused by operation at all times comply with the approved EMPr.
- 3.19 This EA may be amended or withdrawn at any stage for non-compliance and provides no relief from the provisions of any other relevant statutory or contractual obligations.
- 3.20 The holder of EA must note that in terms Section 43A of the National Environmental Management: Waste Act, 2008 (Act No.59 of 2008), residue deposit and residue deposit must be deposited and managed in a prescribed manner on any site demarcated for that purpose in the Environmental Management Plan or Environmental Management Programme. No person may temporary or permanently deposits residue stockpile or residue deposit on any area or site other than on site indicated on the Environmental Management Plan or Environmental Management Programme.
- 3.21 The holder of EA must note that in terms Section 20 of the National Environmental Management: Waste Act, 2008 (Act No.59 of 2008), no person may commence, undertake or conduct a waste management activity, except in accordance, with the requirements of norms and standards determined in terms of Section 19 (3) for that activity or a waste management license is issued in respect of that activity if license is required.
- 3.22 An appeal under Section 43 (7) of the National Environmental Management Act (NEMA), Act 107 of 1998 (as amended) suspend an EA or exemption or any provisions of conditions attached hereto, or any directive unless the Minister directs otherwise.
- 3.23 Should you be notified by the Minister of a suspension of the authorization pending appeal procedure, you may not commence with the activity (ies) until such time that the Minister allows you to commence with such activity (ies) in writing.
- 3.24 The Department reserves the right to audit and/or inspect the activity(ies) without prior notification at any reasonable time and at such frequency as may be determined by the Regional Manager.
- 3.25 The waste storage site must have a firm, impermeable, chemical resistant floors and a roof to prevent direct sunlight and rainwater from getting in contact with the waste.
- 3.26 The storage of hydrocarbons must have bund walls with adequate capacity to contain the maximum volume that is stored in the area. Uncontaminated storm water must be prevented from coming into contact with the waste and must be diverted away from the storage site.

- 3.27 The listed activity (ies), including site preparation, must not commence within 20 (twenty) calendar days of the date of the notification of the decision being sent to the registered I&APs. In the event that an appeal is lodged with the appeal administrator, the effect of this integrated environmental authorization is suspended until such time as the appeal is decided.
- 3.28 Should there be any conflicting conditions between this EA and other approval granted by other authorities, it is upon the holder of EA to bring it to the attention of the Department for resolution.

#### **4. MANAGEMENT OF ACTIVITIES**

- 4.1 A copy of the EA and EMPr must be kept at the property or on-site office where the activity (lies) will be undertaken. The EA and EMPr must be produced to any authorized officials of the Department who request to see it and must be made available for inspection by any employee or agent of the holder of the EA who works or undertakes work at the property.
- 4.2 The content of the EMPr and its objectives must be made known to all contractors, subcontractors, agent and any other people working on the site, and any updates or amendments to the EMPr must be submitted to the Department for approval.
- 4.3 Where applicable regular monitoring and maintenance of storm water drainage facilities must be conducted at all times, if damaged as directed by the Department or any other relevant authority.
- 4.4 A buffer zone of 100 metres between the activity (ies) and the residential areas, cemeteries or burial grounds must be clearly demarcated and maintained.
- 4.5 The holder of the EA must prevent nuisance conditions or health hazards, or the potential creation of nuisance conditions or health hazards.
- 4.6 The holder of the EA must ensure that all non-recyclable waste are disposed of at waste management facilities licensed to handle such wastes and all recyclable waste are collected by licensed waste management facilities for recycling, reuse or treatment.
- 4.7 The holder of the EA must ensure that all liquid wastes, whose emissions to water or land could cause pollution are diverted to sewer, after testing water quality and receiving written approval from the relevant local authority.
- 4.8 Noncompliance with any condition of this EA or EMPr may result in the issuing of a directive in terms of section 28 and or a compliance notice in terms of section 31L of NEMA.
- 4.9 Only listed activities that are expressly specified in the EMPr that forms part of this EA may be conducted, and additional or new activities not specified herein must be applied for by the holder and authorized by the competent authority in the form of an amendment to the aforesaid EMPr before such activities may be commenced with. This condition is also applicable in the case of the amendment, addition, substitution, correction, and removal or updating of any detail in the aforesaid EMPr.
- 4.10 Rehabilitation of the disturbed surface caused by operation at all times must comply with the approved EMPr.

- 4.11 The Holder of EA must ensure that the name and contact details of the ECO is made available to the Regional Manager within 30 days of commencement. The holder of EA must also ensure that an ECO is always available on site to ensure that activity (ies) at all times comply with the issued EA and approved EMPr.
- 4.12 The ECO must;
- 4.12.1 Keep and maintain detailed incidents register (including any spillages of fuels, chemicals or any other material
  - 4.12.2 Keep a complaint register on the site indicating the complaint and how the issues were addressed, what measures were taken and what the preventative measures were implemented to avoid re-occurrence of complaints.
  - 4.12.3 Keep records relating to monitoring and auditing on site and avail them for inspection to any relevant authorised officials.
  - 4.12.4 Keep copies of all environmental reports submitted to the Department.
  - 4.12.5 Keep the records of all rights, permits, licences and authorizations required by the operation.
  - 4.12.6 Compile a monthly monitoring report and make it available to the Department if requested.
  - 4.12.7 The duties and responsibility of the ECO should not be seen as exempting the holder of the EA from the legal obligations in terms of the NEMA.
- 4.13 The footprint of the activity (ies) must be limited to the areas authorised for the actual construction works and operational activities and all areas outside of the footprint must be regarded as a "no go" areas.
- 4.14 Erosion and soil loss must be prevented by minimizing the construction site exposed to surface water run-off. Where necessary erosion stabilizing action such as gabions or re-vegetation must be implemented to prevent further habitat deterioration.
- 4.15 The holder of the EA must ensure that all personnel who work with hazardous waste are trained to deal with these potentially hazardous situations so as to minimize the risk involved. Records of training and verification of competence must be kept by the holder EA.
- 4.16 In order to prevent nuisance conditions, the holder of the EA must ensure that all storage skips and bins are not overfilled.

## **5 REPORTING TO THE DEPARTMENT**

- 5.1 The holder of EA must:
- 5.1.1 Submit and Environmental Audit Report in terms of Appendix 7 of the NEMA EIA Regulations, to this Department in line with the current reporting schedule, must be done by qualified

Environmental Assessment Practitioner and the audit report must specify whether conditions of this environmental authorization and EMP/closure plan are adhered to.

- 5.1.2 Identify and assess any new impacts and risks as a result of undertaking the activity/ies,
- 5.1.3 Identify shortcomings in the EMP/closure plan,
- 5.1.4 identify the need, if any, for any changes to the management, avoidance and mitigation measures provided for in the EMP/closure plan.
- 5.1.5 If applicable, specify that the corrective action/s taken for the previous audit's non-conformities, was adequate.
- 5.1.6 Specify the name of the auditor and
- 5.1.7 Be submitted by the holder to the competent authority within 30 days from the date on which the auditor finalized the audit.
- 5.2. Should any shortcomings in terms of Regulation 34(4) be identified, the holder must submit a recommendation to amend the EMP/closure plan in order to rectify any shortcomings identified with the aforementioned audit report.
- 5.3. Any complaint received from the I&AP during all phases of the operation must be attended to as soon as possible and addressed to the satisfaction of all concerned interested and affected parties.
- 5.4. The holder of the EA must annually assess the environmental liabilities of the operation by using the master rates in line with the applicable Consumer Price Index (CPI) at the time and address the shortfall on the financial provision submitted in terms of section 24 P (3) (a) and (b) of NEMA.
- 5.5. The holder of the EA must, within 24 hours of incidents occurring, notify the Competent Authority of the occurrence or detection of any incident on the site, or incidental to the operation of the site, which has the potential to cause, or has caused pollution of the environment, health risks, nuisance conditions or water pollution.
- 5.6. The holder of the EA must, within 14 days, or a shorter period of time, if specified by the Competent Authority from the occurrence or detection of any incident referred to in condition 5.5, submit an action plan, which must include a detailed time schedule, and resource allocation signed off by top management, to the satisfaction of the Competent Authority of measures taken to –
  - 5.6.1 Correct the impact resulting from the incident.
  - 5.6.2 Prevent the incident from causing any further impact; and
  - 5.6.3 Prevent a recurrence of a similar incident.
- 5.7 In the event that measures have not been implemented within 21 days of the incident referred to in condition 5.6, or measures which have been implemented are inadequate, the Competent Authority may implement the necessary measures at the cost of the holder of the EA.

## 6. SITE SECURITY AND ACCESS CONTROL

- 6.1 The holder of the EA must ensure effective access control on the site to reasonably prevent unauthorized entry. Signs indicating the risks involved in the unauthorised entry must be displayed at each entrance.
- 6.2 Waterproof, durable and legible notices in at least three official languages applicable in the area must be displayed at each entrance to the Site. These notices must prohibit unauthorized entry and state the hours of operation, the name, address and telephone number of the holder of the EA and the person responsible for the operation of the site.

## **7. EMERGENCY PREPAREDNESS PLAN**

- 7.1 The holder of the EA must maintain and implement an emergency preparedness plan and review it biannually when conducting an audit and after each emergency and or major accident. The plan must, amongst others, include:
  - 7.1.1 Site Fire
  - 7.1.2 Spillage
  - 7.1.3 Natural disasters such as floods
  - 7.1.4 Industrial action
  - 7.1.5 Contact details of police, ambulances and any emergency center closer to the site.
- 7.2 The holder of EA must ensure that an up-to-date emergency register is kept during all phases of the operation. This register must be made available upon request by the department.

## **8. INVESTIGATIONS**

- 8.1 If, in the opinion of the Competent Authority, nuisances or health risks may be or is occurring on the site, the holder of the EA must initiate an investigation into the cause of the problem or suspected problem.
- 8.2 If, in the opinion of the Competent Authority, pollution may be or is occurring, the holder of the EA must initiate an investigation into the cause of the problem or suspected problem. Such investigation must include the monitoring of the water quality variables, at those monitoring points and such frequency as may be specified by the Competent Authority.
- 8.3 Investigations carried out in terms of conditions 8.1 and 8.2 above must include the monitoring of the relevant environmental pollution, nuisance, and health risk variables, at those monitoring points and such frequency to be determined in consultation with the Competent Authority.
- 8.4 Should the investigation carried out as per conditions 8.1 and 8.2 above reveal any unacceptable levels of pollution, the holder of the EA must submit mitigation measures to the satisfaction of the Competent Authority.

## **9. COMMISSIONING AND DECOMMISSIONING**

- 9.1 The decommissioning of the parking expansion project must be aligned with the end of life of mine rehabilitation and closure plans.

## 10 SITE CLOSURE

- 10.1 The holder of EA must apply for a closure certificate in terms of Section 34 of Mineral and Petroleum Resources Development Act (Act 49 of 2008), as amended within 180 days of the occurrence of lapsing, abandonment, cancellation, cessation, relinquishment, and completion of development/ mining operation. The application for closure indicated above must be submitted together with all relevant documents as indicated in Section 34 of Mineral and Petroleum Resources Development Act (Act 28 of 2002), as amended. This provision is applicable only when the corresponding mining right has been issued.
- 10.2 No exotic plants may be used for rehabilitation purposes only indigenous plant can be utilized for rehabilitation purposes.
- 10.3 The holder of EA remains responsible for any environmental liability, pollution or ecological degradation, the pumping and treatment of extraneous water, compliance with the conditions of EA and the management and sustainable closure thereof until the Minister has issued a Closure Certificate in terms of Section 34 of Mineral and Petroleum Resources Development Act (Act 49 of 2008). Where necessary the Minister may retain a certain portion of financial provision for residual, health or environmental impacts that might be known in future.

## 11. NEMA PRINCIPLES

The NEMA Principles (set out in Section 2 of NEMA, which apply to the actions of all Organs of State, serve as guidelines by reference to which any Organ of State must exercise any function when taking any decision, and which must guide the interpretation, administration and implementation of any other law concerned with the protection or management of the environment), *inter alia*, provides for:

- the effects of decisions on all aspects of the environment to be taken into account.
- the consideration, assessment, and evaluation of the social, economic and environmental impacts of activities (disadvantages and benefits), and for decisions to be appropriate in the light of such consideration and assessment.
- the co-ordination and harmonization of policies, legislation, and actions relating to the environment
- the resolving of actual or potential conflicts of interest between Organs of State through conflict resolution procedures; and
- the selection of the best practicable environmental option.

## 12. DISCLAIMER

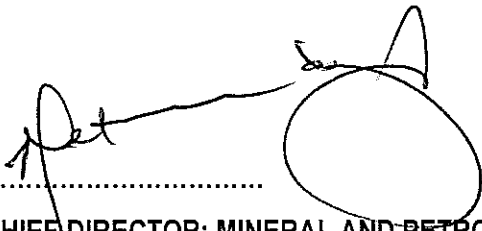

The Department of Mineral Resources in terms of the conditions of this integrated environmental authorization shall not be responsible for any damages or losses suffered by the holder, developer or his/her successor in any instance where construction or operation subsequent to construction is

temporarily or permanently stopped for of non-compliance with the conditions as set out herein or any other subsequent document or legal action emanating from this decision.

### 13. RECOMMENDATION

In view of the above, the NEMA principles, compliance with the conditions stipulated in this EA, and compliance with the EMPr/closure plan, the competent authority is satisfied that the proposed listed activity will not conflict with the general objectives of Integrated Environmental Management stipulated in Chapter 5 of NEMA, and that any potentially detrimental environmental impacts resulting from the development can be mitigated to acceptable levels. The authorisation is accordingly granted.

Yours faithfully

.....  
CHIEF DIRECTOR: MINERAL AND PETROLEUM REGULATION

NORTH WESTERN REGIONS
