Encemeni Envirosolutions (PTY) Ltd is a level 1 BBBEE complying company which is 100% black owned based in Durban. Encemeni Envirosolutions is leading environmental consultancy company that provides a "one stop shop" of environmental solutions. This is achieved by combining expertise in the fields of environmental science and due to the broad nature of the environmental management discipline we have developed integrated team of environmental consultant's professionals.

The company has a history of successfully undertaking challenging projects. Our professional ability to balance our clients' needs with environmental best practice, and sustainable management solutions has made us a well-respected consultancy of choice. We take pride in delivering innovative, sustainable, solutions to our clients, helping them achieve environmental legal compliance and regulate their environmental impact optimally.

We draw our passion from the tremendous growth and development around South Africa that need to be influenced by environmental opinion in order to achieve Sustainable Development. We stand to be part of the solution towards community service delivery whilst ensuring that the environment remains protected during development.
