PERMIT: Excavation, Sampling

In terms of Section 27(18) of the National Heritage Resources Act (Act 25 of 1999)

Permit Holder: Stephanie Edwards Baker
Centre for Anthropological Research (CfAR)

Site: Drimolen, Sterkfontein 519 JQ, Gauteng (9/2/233/0018)

For excavation and sampling of the Makondo and Drimolen Main Quarry deposits at the Drimolen National Heritage Site within the Cradle of Humankind World Heritage Site, Gauteng Province

Conditions:

1. This permit is issued to Ms Stephanie E. Baker (Centre for Anthropological Research, University of Johannesburg) in collaboration with Prof. Andy I.R. Herries (Centre for Anthropological Research, University of Johannesburg).
2. If the permit holder is not to be present on the site at all times then SAHRA must be provided with the names and qualifications of the authorised representatives.
3. Excavation details consist of excavation down into the decalcified deposits of the Makondo deposits as well as stabilisation and excavation of in-situ deposits in the Drimolen Main Quarry (DMQ).
4. Excavation activities will include sieving of sediments. Materials will be bagged per quadrant and labeled carefully. Adequate recording methods as specified in the Regulations and Guidelines pertaining to the National Heritage Resources Act must be employed. Note that the position of all excavations and objects collected must be marked on a plan of the site.
5. Stabilisation at DMQ include stepping of trenches to avoid wall collapse. Sieve dumps must be tarped and covered to avoid seed growth or may be used as bag filling for stabilisation purposes. Large rocks are re-used for wall stabilisation and stepping in access areas. Site maintenance includes a combination of sandbags and a double layer of tarps as well as a thin layer of concrete. The site map must continuously be updated and a total station must be used to record the finds.

6. A standard site record form must be lodged with the Evolutionary Studies Institute, University of the Witwatersrand.
6. All material collected and excavated, as well as field notes and records, will be curated by the Evolutionary Studies Institute, University of the Witwatersrand, who will be responsible for the permanent curation and safekeeping of all artefactual material in a condition that allows ongoing research.
7. Annual permit reports on the results of the excavations and analyses must be submitted to SAHRA via email on or before 31 March 2020 and 2021, and a final permit report on or before 31 March 2022. SAHRA reserves the right to withhold further permits if progress is not deemed satisfactory. Permit reports can be made available to researchers on request within three years of the lapsing of this permit.
8. Reprints of all published papers or copies of theses and/or reports resulting from this work must be lodged with SAHRA.
9. It is the responsibility of the permit holder to obtain permission from the landowner for each visit, and the excavator is responsible for ensuring that he or she has an understanding with the landowner concerning: the number of visitors and workers; conditions for camping on the property; speed limits on access roads; possible prohibitions on off-road driving; size, type and number of vehicles permitted; possible prohibitions on trespassing beyond the site; disturbing fauna, flora or substrate; erection and demolition of structures on the site; appropriate hours of visiting and working on the site; use of firewood, electricity and water; lighting fires and the prevention of uncontrolled fires and any fencing necessary to protect livestock. Conditions of access imposed by the landowner must be observed.
10. The permitted excavator shall be responsible for the activities and impacts of all colleagues, students and employees under his or her supervision.
11. Excavators must take measures to ensure the safety of any person who may enter the excavation site as part of their excavation team or as their visitor.
12. It is the responsibility of the permit holder to protect sites during and after excavation and to ensure that, where appropriate, excavations are filled in or stabilised with adequate materials (e.g. Loffelstein blocks or army bags in geotextile) to the satisfaction of SAHRA and the landowner.
13. SAHRA shall not be liable for any losses, damages or injuries to persons or properties as a result of any activities in connection with this permit.
