## PERMIT: Analysis

### In terms of Section 35(4) of the National Heritage Resources Act (Act 25 of 1999)

Permit Holder: Dr Jennifer Botha-Brink  
National Museum Bloemfontein - Karoo Palaeontology Department  
PO Box 266  
Bloemfontein  
9300

**Object:** NMQR 3542

**For destructive analysis of the following vertebral column fragment of the cynodont *Galesaurus planiceps*: NMQR 3542**

This permit is issued to Dr. J. Botha-Brink (National Museum Bloemfontein, Karoo Palaeontology Department) for destructive sampling of a vertebral column fragment of *Galesaurus planiceps* for bone histological analysis. The specimen was selected because it is unsuitable for morphological analysis and similar material is well known and thoroughly described. The material is currently housed in the National Museum Bloemfontein.

#### Conditions:

1. Sampling includes cutting of the material. As this will be destroyed in the process, the material will be measured and photographed and a cast will be made to retain its potential for future morphometric and descriptive research.
2. Sampling and analysis will take place in the Karoo Palaeontology Department, National Museum Bloemfontein.
3. All thin sections will be stored in a special bone histological collection within the National Museum Bloemfontein.
4. A permit report on the activities of this permit is due on **31 July 2017**.
5. Reprints of all the published papers or copies of these and/or reports resulting from this work must be lodged with the heritage authority.
